

WP 2

Legal preconditions for energy saving measures faced by municipalities

Introduction

Leader: REC Headquarters (P4)

Co-leader: BEF – Latvia (P1)

WP2 aims and duration

Aims at:

- Facilitating a dialogue between national competent authorities and municipalities with regard to implementation of the Directives **2002/91/EC** *on energy performance of buildings* and **2006/32/EC** *on end-use efficiency and energy services*

International experience exchange ➤ holistic view ➤
identification of gaps ➤ possible improvements
at local level

Duration: 1 December 2008 – 30 November 2010
(24 months)

WP2 modifications in negotiations

Planned:

Elaboration of comparative assessment on implementation of the EU Directives into national legislation

Modified during negotiations:

Focus on local level because implementation at national level being an obligation of each Member State national authorities

WP2 main activities

1. Preparation of **glossary of terms** related to energy saving at buildings
2. Organization of **1 large international seminar** on legal systems and implementation schemes in municipalities, experience transfer
3. Organization of **2-3 national meetings in each country** on implementation of EU and national requirements at local level
4. Elaboration of **publication for municipalities** on legal backgrounds, comparative analyses, guidelines/ best practice in implementation of local by-laws in energy efficiency
